

Biomaterials Day Rice University

Monday, June 1, 2015

9:00 am - 7:00 pm

Rice University

BioScience Research Collaborative, Auditorium

Biomaterials Day Rice University is a one-day symposium, funded by the Society For Biomaterials (SFB). The event is designed to enhance networking between academic, industrial and government sectors and increase student exposure to exciting biomaterials research. Students throughout the area, SFB industry members as well as non-SFB members interested in the biomaterials field should attend the event.

Keynote speaker

Kristi Anseth, Ph.D.

University of Colorado, Boulder

Invited speakers

Nine leading engineers, physicians, and scientists will present their latest advances in biomaterials research.

Gang Bao, Ph.D.

Rice University

Matteo Pasquali, Ph.D.

Rice University

Tania Betancourt, Ph.D.

Texas State University

Sergey Shevkoplyas, Ph.D.

University of Houston

Stefanie Biechler, Ph.D.

Bose Corporation

Ennio Tasciotti, Ph.D.

Houston Methodist Hospital Research Institute

William E. Cohn, M.D.

Texas Heart Institute

Chong Xie, Ph.D.

University of Texas at Austin

Kytai Nguyen, Ph.D.

University of Texas, Arlington

Poster competition and registration

Students are encouraged to present a poster. Abstract submission opens April 13 and closes May 20. Awards will be given for best poster in both undergraduate and graduate student categories.

Registration is free for Rice students/postdoctoral fellows, \$25 for non-Rice students/postdoctoral fellows, and \$50 for both industry SFB members and non-members.
